

# STRIKE TEAM® BRUSH CLOTHING

Strike Team® Fire Gear Brush Coats and Brush Pants are full-cut, to allow freedom of movement in all aspects. Sewn to high quality standards with tough KEVLAR® and Tex 80 NOMEX® thread, double stitched seams, reinforced zippers with triple stitches and double top stitching on outer leg seams, pocket flaps, reinforced knees, fly and crotch. Classified in accordance with NPFA 1977 Standard on Protective Clothing and Equipment for Wildland Fire Fighting, 2011 Edition. Fabric meets flame resistant requirements of CAL OSHA Title 8 GISO Sections 3406(c)(1) and 3410(d)(1).

*Optional Scotchlite Trim available on coats and pants.*

*All brush gear is available in even numbered sizes only. Larger and smaller sizes available by request.*

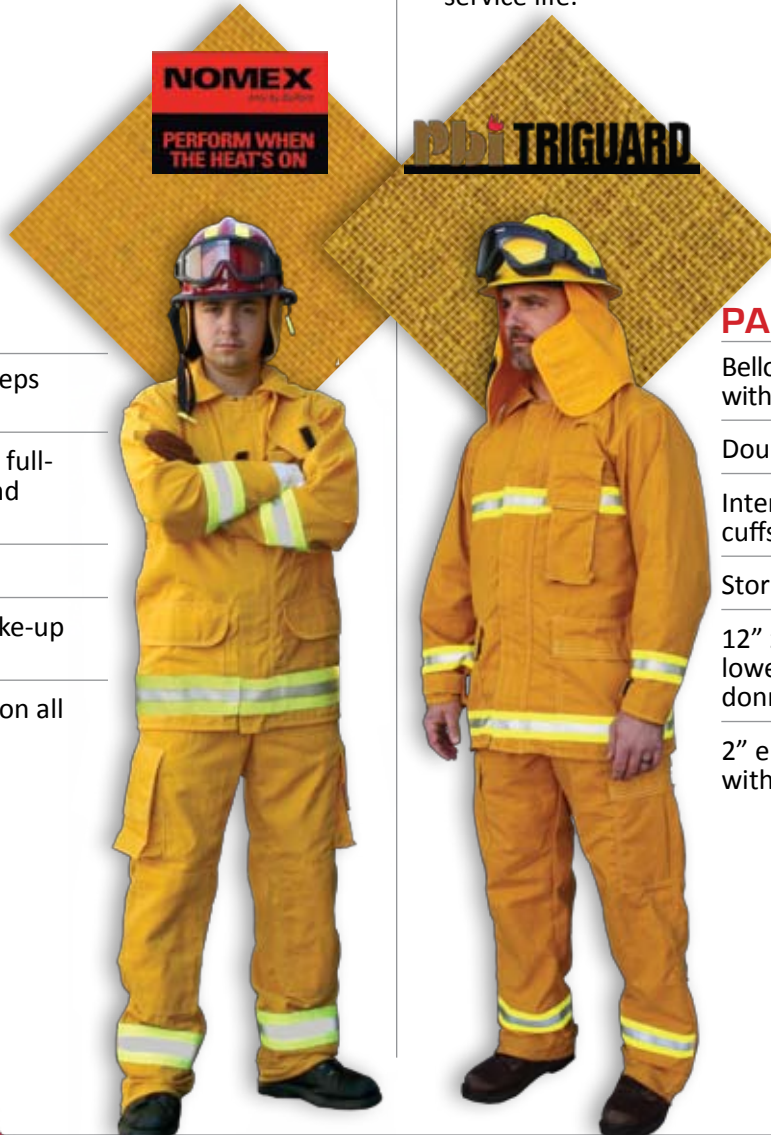

## CHOOSE YOUR FABRIC:

### NOMEX®

NOMEX® is built for flame resistance. The 6 oz. NOMEX® fabric fibers are durable, comfortable, and lighter in weight than their cotton counterpart. This unique combination of properties means that the firefighters who rely on it can be comfortable, while remaining safe and protected from the hazards they face on the job every day.

### PBI TRIGUARD™

The new standard in value and performance. 5.3 opsy Twill with Stay Dry Plus® superior water repellancy created for the Urban Search and Rescue, Emergency Medical Service and Wildlands firefighting markets. Provides a softer, lightweight, and more flexible fabric while maintaining unmatched thermal performance and strength. Superior resistance to puncture and tears, and an outershell that remains tough and rugged for reliable service life.

### COATS

Self-fastening storm flap keeps collar upright

Zippered front closure with full-length self-fastening flap and interior zipper-guard

Radio Pocket & Mic Tab

Adjustable self-fastening take-up straps on sleeves

Self-fastening closure flaps on all exterior pockets

### PANTS

Bellowed fatigue-style pockets with self-fastening closure flap

Double layer reinforced knees

Interior zipper-guard flap on leg cuffs

Storm flap fly with snap

12" zipper and snap fastener on lower leg with take-up strap for donning over boots

2" elastic self material waistband with 5 belt loops

# STRIKE TEAM® PANTS

*Cascade Fire Equipment is setting the industry standard by manufacturing the finest wildland gear in the USA using the best materials available. We provide comfortable, dependable, and durable personal protection for firefighters in any situation. Sewn to the highest quality standards is our ISO certified facility.*

**STRIKE TEAM® PANTS** are rugged enough to meet the demands of wildland firefighting, yet comfortable enough to be worn around the station. Our **STRIKE TEAM®** Pants for **WOMEN** are designed to comfortably fit the female figure, with a smaller rise and less “bulk,” allowing you to move freely on the fireline. Classified in accordance with NFPA 1977 Standard on Protective Clothing and Equipment for Wildland Fire Fighting, 2011 Edition (Men’s sizes only). Fabric meets flame resistant requirements of CAL OSHA Title 8 GISO Sections 3406(c)(1) and 3410(d)(1). Full-cut to allow freedom of movement and made of 7.5 oz. **NOMEX®** in Green or Navy, or 7 oz. **Kevlar®/Advance™** in your choice of Green, Navy, Khaki, or Yellow.

## KEVLAR® / ADVANCE™

**Advance™** is a unique 60/40 blend of **Kevlar®** and **NOMEX®** that offers outstanding, uncompromised performance wildland firefighters require everyday. **Kevlar®** is 5 times stronger than steel on an equal weight basis, yet, at the same time, it is lightweight, flexible and comfortable. This unique combination makes the **Kevlar®/Advance™** **Strike Team®** Pants the toughest garments we produce.

## NOMEX®

**NOMEX®** is built for flame resistance. The 6 oz. **NOMEX®** fabric fibers are durable, comfortable, and lighter in weight than their cotton counterpart. This unique combination of properties means that the firefighters who rely on it can be comfortable, while remaining safe and protected from the hazards they face on the job every day.

## PANTS

2” elastic self material waistband with 6 belt loops

Rear pockets with self-fastening flap

Adjustable leg cuff closure system with self-fastening take-up straps

Front slash pockets

Zipper fly with snap closure and interior zipper guard flap

Fatigue style side pockets 8” x 9” with self-fastening flap

Available in Men’s even-numbered waist and inseam sizes

Available in Women’s even sizes 0-14 with three inseam lengths; Petite (30”), Regular (32”), and Long (34”) (not NFPA approved)
